

Learn English language skills, make new friends and find out more about Australian society.

In an AMEP class you will learn English language skills and information about Australian society. You will meet other new arrivals, with similar backgrounds, experiences and goals, and you will make new friends.

You can improve your communication skills, which will help you and your family to settle in Australia. English language skills are also important if you wish to work in Australia.

We offer FREE training with flexible hours, delivered in a relaxed and friendly environment.
